Erik,

To date I have not heard back from you or received any additional information regarding the disposition of an assumed overpayment made to me in 2018 by APFA. I have asked for additional documentation regarding the calculations of pay used for my agreed to unused Sick and Vacation days. (See email below) I have attempted to contact you on the cell phone number I was provided by you. I was instructed my you to only use that number as you are working remote and do not receive voicemails in your office. To date I have not stated or indicated that I would not make any overpayment but assured you I would pay what is proved to be owed but I need additional information and any documentation statements that sets the terms and conditions of payments. I have not received any reply to calls or to the email shown below.

As a member in Good Standing, let this email serve as my request for a meeting at APFA Headquarters to review documents related to my resignation agreement, calculations used for my unused Sick and Vacation days paid in 2018 and a copy of My signed Resignation agreement and any and all documents related to expense reports and receipts during my term in office. I would like to meet on Feb. 3rd during morning business hours. I also request the presence of an accountant versed in the procedures used to calculate my agreed to resignation payments. Please let me know what time works for you **between 0900-1300 Wed. Feb. 3, 2021.**

I am requesting that this meeting to review documents take place prior to your insistence that this matter be turned over to "Collections" in an effort to resolve these disputed charges, alleged to have been made in error by APFA.

Base Presidents,

In response to yesterday's Treasurers Report, I have on several occasions, attempted to contact the Collection agency with the information given to me by Erik Harris, Diversified Credit Systems. After several attempts to contact this agency, I was told they do not have any account in my name or from APFA in my name.

I am requesting that my account be withdrawn from any collections agency and any negative reporting to credit agencies be reversed as evidence of good will until all facts and/or an affordable payment plan can be established. I would like access to records to confirm I was paid per our resignation agreement, any balance be agreed to by both parties and a proper and affordable payment plan be established to make APFA whole. I believe this is not asking too much but is all I've been asking for since this all started.

It is import for the BOD to know I had nothing to do with the method or calculations used in my unused sick and vacation days and would have preferred this issue have been addressed when the other Officers were notified. I was told by Craig Gunter, the former APFA National Treasurer and the former APFA attorney Mark Richard, well over a year ago, that my calculations were correct.

At no time have I ever stated that I "refuse" to pay or reimburse APFA, as has been stated. I did not address this on the record yesterday as that would violate my privacy and my family personal interests. I am asking the BOD to work with me on this issue as there is only now policy and was no such policy for sending incidents like this to collections with only 30 day notice without hearing the member's disputes and without full knowledge of facts in the case.

I would also like to applaud and support Erik Harris' effort to rectify APFA's financial situation, considering the state of financial devastation he walked into. I am asking the BOD's support in rectifying any misunderstandings and allow us to work out an equitable payment plan based on all known facts and calculations. I would also like to set up a meeting with Erik Harris and APFA Legal Counsel, Margot Nikitas to review the calculations on my monies owed.

Bob Ross

Hi Erik,

Our supervisor talked to Mr. Ross. He is stating he's on the board of A.P.F.A.? Also, he said that he did not receive our letter with the dispute verification. He now lives in California. When we talked to him previously he verified his address. Our supervisor updated his address information and we are re-sending the information. He stated that he is trying to refinance his home. It sounds like he may pay the account but it seems he may be stalling as well.

We will keep on top of the account.

Thanks,

Erik, You had no right to send this to collections while refusing to supply requested documentation since November 2020. You failed to return calls and forward my requested documents and it's become obvious you failed to properly report those facts to the BOD. This issue was still in dispute and you gave me NO opportunity to address this issue as requested. However I did tell you I would pay amounts proven to be in error by APFA. No specific payment plan was ever proffered to me and no terms or documents containing any suggested or acceptable payment and no conditions were formerly discussed. No company would have the right to circumvent due process in this manner and no true Union would do this to a member in good standing. It is obvious this issue is more than a business model but is a personal vendetta. I have reached out directly to you with a request to view documents and that request has not changed.

This same request was afforded to the other 3 National Officers and they were given opportunities to meet with the Auditor to confirm how these calculations were justified. I request the same courtesy. I am requesting my account is withdrawn from collections until I am afforded proper due process and documentation that I have requested in November and again on January 4, 2021 is obtained.

Well, as the plot thickens, so emerges the facts. Because I reached out to the collections agency it was discovered APFA provided the wrong address to the collections agency. However they have been able to send all other APFA mailings to my proper address in California. Oddly enough the address given to the collections agency was a Texas address I haven't lived at in over a year. While I'm falsely being accused of "Refusing" to take care of my business it will be interesting to see if this fact makes it back to Ms. Chinnery or ever sees the light of day on Facebook.

Hi John,

I usually check in every week and hadn't received any response from my request for an update last week. The last response I received from the collection agency was on 4/2 and it was stated that Mr. Ross disputed the account. The collection agency sent him an itemization and a dispute completion form as they are required to by law and have not been able to speak to him since.

I just sent over an additional request for an update. As soon as I get a response I will update the BOD.

Thanks,

Erik

I'm writing to you because after leaving your office I'm more concerned than ever with the lack of transparency regarding our financials.

On 4 different occasions I came to Dallas; (May 28, May 29, June 3, and June 6), flown in, took time off work, paid for or arranged for accommodations, and made appointments with you to discuss the blatant discrepancies regarding the Ross/ Martin administration. I asked once again on our fourth meeting to see the four \$4,000 checks that were written to three of the previous National Officers. These four \$4,000 checks were cashed and deposited the same day. Once again I was told no. I asked to see the profit sharing checks and was once again told no. I asked if you had made any headway into the investigation for the double dipping with vacation payouts to the previous National Officers; you said, "I haven't done anything yet".

I also wished to discuss the blatant abuse of mileage by the former base CLT President. I'm aware that legal called the DOL when this transpired. However, the DOL was not informed about her prior history of "mistakes" with her expenses. As I told you in our meeting, the CLT base president prior to Wanda Sarnaki had a meeting with Bob Ross and Eugenio Vargas regarding Cathy Bossi's signature being forged by Ms Sarnaki. Ms Bossi asked for restitution to be made for the months that her name was forged. Bob Ross and Eugenio Vargas said it was a "mistake" and forgave the months of forgery and she was not made to give restitution.

Also, I wanted to talk about the missing box of original forms that was sent by the person who turned Ms

Sarnaki in. How does a box that is signed for go missing from your office? You replied, "we don't have it, it's not here". I also asked who calculated the monetary figure Ms Sarnaki had to repay. At our second meeting you said it was Rachel in accounting. At our third meeting you said it was you. Rachel is the same recipient for whom two people stated Ms Sarnaki bought a necklace, bracelets and other gifts. How is this appropriate? You said in our meeting it wasn't a crime to buy people gifts. Pardon my bluntness but considering Ms Sarnaki lives 1.6 miles from the airport and charged thousands and thousands of dollars in mileage, breaking policy month after month and this is the person in accounting that initially signed off on it, shouldn't this be handled by someone that wouldn't have a conflict of interest? Also, were these gifts bought with mileage money? I was told she was buying flowers, gift cards and gifts and expensing this to mileage. Was the jewelry that Rachel received accepted on APFA property? Was legal informed about the missing box of documents and about the gifts given to the accounting department before they called the DOL? Don't you believe when this was reported to your office that there should have been a formal investigation? This is thousands of dollars that were signed off on by two of the previous National Officers every month from April 2017 to November 2018, and this was a "mistake"? I asked who signed off on them and was not given an answer. I asked why the numbers were changed to reflect lower numbers than the original mileage forms that Ms Sarnaki submitted and paid for. I have the original mileage forms by the person who turned her in and they did not reflect the numbers you gave me. When I presented these numbers to you, you verified my numbers were correct, I'm just confused why they were changed to reflect lower numbers in the financials. Why were the numbers altered?

for or arranged for accommodations, and made appointments with you to discuss the blatant discrepancies regarding the Ross/ Martin administration. I asked once again on our fourth meeting to see the four \$4,000 checks that were written to three of the previous National Officers. These four \$4,000 checks were cashed and deposited the same day. Once again I was told no. I asked to see the profit sharing checks and was once again told no. I asked if you had made any headway into the investigation for the double dipping with vacation payouts to the previous National Officers; you said, "I haven't done anything yet".

I also wished to discuss the blatant abuse of mileage by the former base CLT President. I'm aware that legal called the DOL when this transpired. However, the DOL was not informed about her prior history of "mistakes" with her expenses. As I told you in our meeting, the CLT base president prior to Wanda Sarnaki had a meeting with Bob Ross and Eugenio Vargas regarding Cathy Bossi's signature being forged by Ms Sarnaki. Ms Bossi asked for restitution to be made for the months that her name was forged. Bob Ross and Eugenio Vargas said it was a "mistake" and forgave the months of forgery and she was not made to give restitution.

Also, I wanted to talk about the missing box of original forms that was sent by the person who turned Ms Sarnaki in. How does a box that is signed for go missing from your office? You replied, "we don't have it, it's not here". I also asked who calculated the monetary figure Ms Sarnaki had to repay. At our second meeting you said it was Rachel in accounting. I would also like to know why legal informed the Board of Directors after legal had already settled the issue? I've spoken to one of the Board of Directors and they will attest they were informed after she was allowed to pay the money back. The Board of Directors is the governing body of this union and they should have been apprised before Ms Sarnaki was allowed to make restitution and the issue was settled. We agreed to a date of August 5th.

Let me know what time you would like to come in. I will check to see if legal can meet with us.

I did not get a voicemail. Is this like when you said you had a meeting last Thursday and hurried me out of your office only for someone to call me from your office and tell me that you were on your way to the airport and listed on the 6pm home

I'm really exhausted trying to get answers from you. There is not one reason I should be going to these lengths to get straight answers about this. I forgave the incident about you breaking my confidentiality and telling people my name. I have taken being treated lead than respectful and being reminded every time I was in your office that I was "keeping you from real work" by seeing me. However, my patience is wearing thin

How did Bob Ross make roughly 30k (not including monthly salary) in one day without a formal resolution from the Board of Directors explaining to the membership how our dues dollars were spent? And why was Bob Ross paid monthly, seemingly kept on payroll according to the dates of the checks, until July when he resigned in March?

Why are there double checks of the same amount? Please note that I copied the check numbers from what Sandra and I saw so there would be no discrepancy in differing from one check or the other.

You confirmed on July 10th, that SAF and MEA pay was used to formulate figures for the 3 previous National Officers. These checks were issued for vacation accrual, vacation buyback, and sick accrual. Why would SAF and MEA pay be used for vacation and sick time? You stated they were overpaid, yet the figure of how much has been over paid has yet to be calculated or repaid over a year later from when it was paid out. When can we expect to see that money repaid to the membership? The checks were cut, disbursed, and deposited on the same day, June 29, 2018, which was 3 days before the three previous people in question left their position as National Officers. Am I correct to assume these 3 previous National Officers signed off on their own wrongly calculated checks? I'm confused because past practice has always been that the incoming National Officers issue this payment not by outgoing Officers signing off on their own payments. Also, it is my understanding that this formula to calculate amounts like this has never been used before. How was this allowed to happen?

Thank you in advance for your assistance with these questions. Your timely response is appreciated.

Sincerely,

Melissa Chinery

Dear Mr Richard,

APFA made a determination that this was not misappropriation of funds but simply an error in applying the policy. This is obviously incorrect and amounts to a cover up for theft. I have been lead to believe that the APFA attorneys made this determination. Is that not correct? And if not, why have you not reviewed it?

The 3 former National Officers broke the money into 4 small checks of \$4000 totaling roughly \$16k each, all cashed and deposited on the same day, 3 days before they left office. The 3 former National Officers changed their rate of their pay, (a never been used formula in the history of APFA), using MEA and SAF for their profit sharing, sick and vacation pay, inflating their pay thousands of dollars. The 3 former National Officers changed this formula against the in-house accountant's advice. There is no flight attendant on the planet that believes that they should get per-diem for vacation, sick, and profit sharing.

After the 3 former National Officers get accidentally caught they are not reprimanded, not penalized and instead of calling it what it is.....misappropriation of union funds, someone made the determination that it was simply a deviation of past practice.

For 8 months I have been trying to get simple questions answered and have been stonewalled at every turn. I believe there is an attempt to cover up corruption at APFA. I know you may be offended but what is truly offensive is that there is so little disregard for the members and the law from those who are supposed to be working on our behalf.

If you are saying that arrangements have been made that means the **three in question** have not paid are not complying with the resolution put forward by the EC. This is chargeable.

I want answers to my questions. This is misappropriated money that was wrongfully taken, the three in question have known about this for months. Why hasn't it been repaid yet? We are not a bank that gives out interest free loans.

Are you calling it a "loan" to help the three in question the same way you helped Wanda hide her mileage fiasco?

This is all very shady, very disappointed in you Craig.

Are they paying in installments? And why are you trying to call it loan? Did you find more money that Nena Martin owed when you went with her on the October 31st?

When are you going to tell the membership about this? Don't you think we all have a right to know?

Melissa,

Per the EC resolution, they all met the deadline and agreed to pay the full amount. We are working on paperwork internally to finalize the payments.

Craig,

Are you being advised by legal not to answer my questions regarding the money being paid back? I find it odd that you suddenly went silent after my email exchange with Mark Richard. He didn't respond to my questions either.

Why isn't the membership allowed to know if the money was paid back? Why is it being called a "loan" when it is misappropriated money? Why are they allowed to pay in installments? Also, per the LMDRA I thought they can't have a loan to the APFA more than \$2000. To my knowledge they owe over \$4000 each,

Please respond to my questions.

Melissa Chinery

The EC resolution stated that the money was to be paid back by the 6th or a lawsuit would be filed. From what I understand the money isn't paid back yet and there might be more money owed from an over payment to Nena Martin.

Please know you saying the three have "made arrangements" to pay it back is flimsy at best. That is not the same as paid in full. Next thing you will be calling this is a loan or letting them do a 2 year payment plan to make it easier for them to pay it off or something weird like that. Again, this is misappropriated money and it should be treated as such.

The reason I need those answers, we have Article 7 charges for the 3 former National Officers ready to submit for lack of payment and failure to comply with the EC resolution set forth last month. We want to submit them today so please get back to me by the end of the day with all of my answers.

Craig,

Still have no response to my valid questions from you. "Making arrangements to pay" is not having the bill paid by January 6th. Per the EC resolution the money was supposed to be received and everything taken care of by the 6th or there would a lawsuit filed. If you are saying that arrangements have been made that means the three in question have not paid are not complying with the resolution put forward by the EC. This is chargeable.

I want answers to my questions. This is misappropriated money that was wrongfully taken, the three in question have known about this for months. Why hasn't it been repaid yet? We are not a bank that gives out interest free loans.

Dear Craig,

I would like to know two things, first have the former National Officers repaid the misappropriated funds they paid out to themselves before they left office? Per the EC resolution this money was supposed to be paid back by January 6th. Did they pay it back by that date?

Secondly, I became aware last week that when the three former National Officers reviewed the calculations with you and the auditor at the October meeting there was an accounting error discovered. This error caused an overpayment to Nena Martin during her transition. Is she repaying this amount also?

Thank you in advance for your help.
